

Body Composition Wi-Fi Scale

Available colors:

A Wi-Fi scale that uses patented Position Control™ technology to deliver the most accurate body composition readings (weight, body fat and water percentage, plus muscle and bone mass). Body+ provides immediate on-screen feedback and automatically synchronizes with your smartphone to display trends and help users reach their goals.

Features

Full body composition

Track weight, BMI, total body fat and water percentage plus bone and muscle mass.

Weight trend screen

Displays a graph with the previous 8 measurements, as well as the difference between the latest measurement and the one before.

Family-friendly features

Recognizes and tracks up to 8 users, and includes breakthrough solutions for parents and pregnant women. With Baby Mode, parents can track their child's weight by simply stepping on the scale while holding their baby, and Pregnancy Tracker gives personalized guidance with obstetrician-reviewed advice, tips, and personalized weight tracking.

Automatic Wi-Fi or Bluetooth® synchronization

Every weigh-in appears on your smartphone in the Health Mate™ app.

Unique programs

Health Mate™ coaches users with personalized advice and encouragement to help them reach their objectives.

Local weather forecast

When the scale is connected over Wi-Fi, it will provide a daily local weather forecast to help users plan their outfit and the day's activities.

Activity

When paired with a Withings activity tracker or the built-in Health Mate™ step tracking, the scale can display the previous day's steps to help users understand how their efforts impact weight.

Technical Facts & Design

Available on iOS (iOS 10 and higher) and Android (6 and higher)

Best-in-class accuracy via Position Control™ technology, a patented body position detector

Stores up to 16 readings if scale cannot sync wirelessly

Battery: 4x 1.5V Alkaline cells (AAA)

Average battery life: up to 18 months

Price & availability

\$99.95
