ScanWatch Light

Non-Stop Daily Care | Menstrual Cycle Guide | Complete Health View

Daily Health Hybrid Smartwatch

ScanWatch Light is the perfect representation of what a health hybrid smartwatch should be: advanced sensors providing essential & accurate health data all nested in a premium & lightweight watch. And because improving or maintaining health is a journey that benefits from around-the-clock tracking, ScanWatch Light packs 30 days of battery life before needing to be recharged.

30 DAYS OF HEALTH TRACKING

- Stay motivated with activity tracking
- Improve your nights by assessing sleep quality
- Follow your heart rate and receive day & night notifications

CYCLE SYNCING MADE EASY*

- Get your predictive menstrual phases and cycle length
- Log symptoms on the watch or in-app & follow trends
- Discover how activity & sleep data evolve during your phases

COMPREHENSIVE DATA & LONG-TERM SUPPORT

- Innovative and complete measurements all in one app
- Health Reports: one specifically for menstrual health
- Certified for quality & security featuring proprietary servers

PRICE (MSRP)

€249.95 (37mm)

Proprietary technology

ScanWatch Light benefits from our 10+ years of experience with holistic round-the-clock tracking which allows for the most precise watch experience and in-app insights. Part of the newest generation of our hybrid smartwatches, ScanWatch Light includes upgraded HealthSense™ Software combined with new sensors to provide more metrics and improved accuracy.

State-of-the-art sensors

PPG NEXT GENERATION

Combined with our HealthSense™ operating software, our multi-wavelength photoplethysmogram (PPG) sensors now provide more health metrics such as respiratory rate and heart rate variability in addition to more accuracy.

HIGH DYNAMIC RANGE ACCELEROMETER

This new accelerometer embeds more directional sensors to provide more precision in activity & workout and allows to track 40+ activities automatically

HealthSense™ OS

HealthSense™ Software is our proprietary OS and includes continual firmware updates over time. It harnesses the power of our sensors and uses on-device ML to deliver instant and secure health metrics on the watch, proactive health alerts, and seamless navigation to consult or log data.

POWERSENSE™ PRO (GEN 3)

Saves battery by detecting when the watch is not worn to avoid unnecessary tracking.
Identifies the best time to launch a health measurement and send an alert if necessary.
Senses when the wearer is falling asleep or waking.

ACTIVITYSENSE 2

Combined with our new accelerometer, this new generation features our proprietary activity recognition algorithms that now allows 40+ sports to be detected, automatically.

MANUAL LOGGING TO-GO*

A dedicated menu for menstrual cycle logs is now available directly on the watch. Mood, vaginal discharge, and symptoms can be logged at anytime, discreetly.

HEALTH DATA HISTORY AT HAND

Trends for sleep, steps, distance, active minutes and so much more are now available directly on the watch.

GOALS IN SIGHT

Activity is always accessible via a new UI that compiles steps and active minutes available right on the watch.
