- QuickClean sieve
- Smooth and easy to clean surfaces

Squeeze every drop from your fruits and vegetables

- Juice up to 2L in one go
- Powerful 800 W motor
- XL feeding tube (75mm)

PHILIPS

Highlights

QuickClean technology

The Philips juicer is designed for easy cleaning thanks to QuickClean technology. Cleaning can now be done within 1 minute, thanks to the integrated pulp container and smooth surfaces.

Pre-clean function

The Philips juicer is the 1st centrifugal juicer on the market with a pre-clean function. By pouring water in the pusher, you can create a water fountain in the appliance, which rinses away the unwanted fibers from the lid and makes the sieve easier to clean.

Integrated pulp container

The pulp will all be collected in the only place where it should be: in the pulp container of

your Philips juicer. That means there is no need to remove pulp from other parts such as the lid anymore. Due to the round design and smooth surfaces without nooks and crannies, the pulp is easy to reach and the container is much easier to clean.

QuickClean sieve

A lot of pulp fibres usually get stuck in the sieve, which makes it very difficult to clean. Thanks to the innovative QuickClean technology all surfaces of the sieve are smooth, which helps you wipe away the fibres with a standard kitchen sponge.

Smooth and easy to clean

The juicer is designed with round shapes and smooth surfaces to facilitate easy rinsing under the tap.

See-through pulp container

Enjoy a true interactive juicing experience. The lid and the pulp container are transparent so you can see your fruits and vegetables being juiced. You also directly see when the container is full which means it is time to empty it.

Quick and easy assembly

Quick and easy assembly of all parts.

Juice up to 2L in one go

You can make up to 2L of juice in one go without needing to empty the pulp container.

Powerful 800 W motor

Juice the toughest fruits and vegetables effortlessly with the strong 800W motor.

Specifications

Technical specifications

- Capacity: 2 L
- Voltage: 220-240 V
- Cord length: 1 m
- Power: 800 W
- Frequency: 50/60 Hz
- Pulp container: 1.2 L
- Feeding tube dia: 75 mm
- Capacity juice jug: 800 ml

General specifications

- Non-slip feet
